Board Communication

**BC Number S-1**

From the Office of the Superintendent  
To the Members of the Board of Education  
Prepared by: Robert G. Nelson, Superintendent  
Cabinet Approval:

Date: June 09, 2023

Phone Number: 457-3884

Regarding: Superintendent Calendar Highlights

The purpose of this communication is to inform the Board of notable calendar items:

- Spoke at the African American High School Graduation Recognition Ceremony
- Spoke at the Latinx Graduation Celebration
- Attended Golden Heart Award Celebration at Easterby and Burroughs
- Held Interviews for Principal, Executive Director Special Education and Administrator Human Resources/Labor Relations
- Attended the following graduation ceremonies
  - Fresno High School
  - Edison High School
  - Adult Transition Program
  - Hoover High School
  - Sunnyside High School
  - Roosevelt High School
  - Bullard High School
- Held press conference regarding Summer Meals Program
- Held bargaining session with Fresno Teachers Association

Board Communication

**BC Number DS- 1**

From the Office of the Superintendent  
To the Members of the Board of Education  
Prepared by: Carmen Rodriguez and Edgar Pelayo  
Cabinet Approval: Misty Her 

Date: June 09, 2023

Phone Number: 457-3958

Regarding: 2022/23 i-Ready Diagnostic 3 Performance

The purpose of this communication is to provide the Board a summary of i-Ready Diagnostic 3 performance. 50,639 students completed the i-Ready Diagnostic 3 in Reading and 50,778 students completed i-Ready Diagnostic 3 in Math. All students in grades K–10 take i-Ready Reading and Math. In high school, grades 11 and 12 participate in i-Ready Reading Diagnostic if they are English Learners or if indicated in an IEP for students with disabilities. i-Ready data is presented in standard view which is used to understand how students are performing during the school year. Standard view considers a student to be on grade level if the student is performing early, mid, or late within their current grade level.

2022/23 i-Ready Diagnostic 3 typical and stretch growth results for Reading and Math are also included in this communication. Typical Growth is the average annual growth for students. Typical Growth Targets are established by students' grade level and placement on the first diagnostic of the year. Stretch Growth is an ambitious but attainable level of growth that puts below-grade level students on a path to proficiency and on-grade level students on a path to advanced proficiency. Student Stretch Growth Targets are established by students' grade level and placement on the first diagnostic of the year. Included in this communication is an infographic with i-Ready Diagnostic 3 results in more detail. Additionally, district-level summaries that show results for regions and schools, grade level, and student group are included.

If you have any questions pertaining to the information in this communication, or require additional information, please contact Carmen Rodriguez at 457-3959 or Edgar Pelayo 457-3692.

Approved by Superintendent  
Robert G. Nelson Ed.D.

White	2,862	3,728	59.5%	1.6%	56.1%	2.7%	47.4%	1.7%	37.2%	3.4%

Only students who participated in at least 2 test administrations during the year will have growth scores.

The i-Ready Diagnostic 2 was not required for grades 7-12 in 2022-23 but was required for D3. High Schools were required to participate only in D3. Therefore, most high school students will not have Growth Scores. It is recommended that results for Middle School be interpreted with caution due to wide variation in testing dates for D3.

Typical Growth is a level of growth that is typical or expected on average for students. Stretch Growth is an ambitious but attainable level of growth that puts students on a path to proficiency or advanced proficiency. Growth Targets are established by students' grade level and placement on the first diagnostic of the year. Students who reach their Typical Growth Target have grown at a rate that is typical of other students nationwide on average. Students who reach their Stretch Growth target have grown at a rate that will put them on track to proficiency (if below grade level) or on track to advanced levels of proficiency (if on or above grade level).

At Diagnostic 2 (D2), students met Typical or Stretch Growth Annual Targets if they achieved 40% or more of their target. At D3, students met Typical or Stretch Growth Targets if they achieved 80% or more of their target. Middle Schools that tested before March 27 met Growth Targets if they achieved 60% or more of their target.

Only students who participated in at least 2 test administrations during the year will have growth scores.

The i-Ready Diagnostic 2 was not required for grades 7-12 in 2022-23 but was required for D3. High Schools were required to participate only in D3. Therefore, most high school students will not have Growth Scores. It is recommended that results for Middle School be interpreted with caution due to wide variation in testing dates for D3.

Typical Growth is a level of growth that is typical or expected on average for students. Stretch Growth is an ambitious but attainable level of growth that puts students on a path to proficiency or advanced proficiency. Growth Targets are established by students' grade level and placement on the first diagnostic of the year. Students who reach their Typical Growth Target have grown at a rate that is typical of other students nationwide on average. Students who reach their Stretch Growth target have grown at a rate that will put them on track to proficiency (if below grade level) or on track to advanced levels of proficiency (if on or above grade level).

At Diagnostic 2 (D2), students met Typical or Stretch Growth Annual Targets if they achieved 40% or more of their target. At D3, students met Typical or Stretch Growth Targets if they achieved 80% or more of their target. Middle Schools that tested before March 27 met Growth Targets if they achieved 60% or more of their target.

Only students who participated in at least 2 test administrations during the year will have growth scores.

The i-Ready Diagnostic 2 was not required for grades 7-12 in 2022-23 but was required for D3. High Schools were required to participate only in D3. Therefore, most high school students will not have Growth Scores. It is recommended that results for Middle School be interpreted with caution due to wide variation in testing dates for D3.

Typical Growth is a level of growth that is typical or expected on average for students. Stretch Growth is an ambitious but attainable level of growth that puts students on a path to proficiency or advanced proficiency. Growth Targets are established by students' grade level and placement on the first diagnostic of the year. Students who reach their Typical Growth Target have grown at a rate that is typical of other students nationwide on average. Students who reach their Stretch Growth target have grown at a rate that will put them on track to proficiency (if below grade level) or on track to advanced levels of proficiency (if on or above grade level).

At Diagnostic 2 (D2), students met Typical or Stretch Growth Annual Targets if they achieved 40% or more of their target. At D3, students met Typical or Stretch Growth Targets if they achieved 80% or more of their target. Middle Schools that tested before March 27 met Growth Targets if they achieved 60% or more of their target.

Report reflects results for grades K-12. Diagnostic 2 (Nov 28- Dec 16) was not required for grades 7-12 in 2022-23, although some MS sites participated in D2 testing. The general D3 MS window was Feb 21- March 10. The Elementary and HS window was Mar 27 - May 19. While most MS sites took the D3 diagnostic during their specified window, some MS sites took the D3 diagnostic outside of their specified window. Additionally, one MS took the D2 diagnostic (unrequired) 5 weeks after the D2 window closed. Caution is recommended when interpreting MS results using Spring as a reference point due to the variation in testing dates.

Report reflects results for grades K-12. Diagnostic 2 (Nov 28- Dec 16) was not required for grades 7-12 in 2022-23, although some MS sites participated in D2 testing. The general D3 MS window was Feb 21- March 10. The Elementary and HS window was Mar 27 - May 19. While most MS sites took the D3 diagnostic during their specified window, some MS sites took the D3 diagnostic outside of their specified window. Additionally, one MS took the D2 diagnostic (unrequired) 5 weeks after the D2 window closed. Caution is recommended when interpreting MS results using Spring as a reference point due to the variation in testing dates.

Report reflects results for grades K-12. Diagnostic 2 (Nov 28- Dec 16) was not required for grades 7-12 in 2022-23, although some MS sites participated in D2 testing. The general D3 MS window was Feb 21- March 10. The Elementary and HS window was Mar 27 - May 19. While most MS sites took the D3 diagnostic during their specified window, some MS sites took the D3 diagnostic outside of their specified window. Additionally, one MS took the D2 diagnostic (unrequired) 5 weeks after the D2 window closed. Caution is recommended when interpreting MS results using Spring as a reference point due to the variation in testing dates.

Fresno Unified School District  
Board Communication

**BC Number BFS-1**

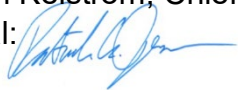

From the Office of the Superintendent  
To the Members of the Board of Education

Date: June 09, 2023

Prepared by: Kim Kelstrom, Chief Executive

Phone Number: 457-3907

Cabinet Approval:

Regarding: School Services Weekly Update Reports for June 02, 2023

The purpose of this board communication is to provide the Board a copy of School Services of California's (SSC) Weekly Updates. Each week SSC provides an update and commentary on different educational fiscal issues. In addition, they include different articles related to education issues. The SSC Weekly Update for June 02, 2023 is attached and includes the following articles:

- Congress Approves Debt Ceiling Legislation – June 02, 2023
- Gavin Newsom Warns California Schools that Ban Books Will Answer to the Attorney General – June 01, 2023
- With Chronic Absenteeism on the Rise, Why is California Making School Transportation Harder? – May 31, 2023

If you have any questions pertaining to the information in this communication, or require additional information, please contact Kim Kelstrom at 457-3907.

## 2023-24 State Budget Update

In last week's *Sacramento Update*, we detailed the education actions taken by the Assembly and Senate budget committees for their respective versions of the 2023-24 State Budget, but there is nothing new to report this week on the negotiations between the two houses.

While we continue to hear rumors that the Legislature wants to forgo the formal conference committee process, whereby both houses approve their own version of the State Budget and then form a committee to reconcile the differences, there has yet to be a deal announced by the two sides. When the parties do come to an agreement, they will provide a joint press release highlighting the key points of their 2023-24 State Budget. From there, they will hold budget committee hearings and floor sessions to approve the State Budget before the June 15 constitutional deadline.

However, even if the Legislature is able to reconcile their differences, they will still need to work with the Administration to compromise on the State Budget prior to the start of the 2023-24 fiscal year.

## House of Origin Deadline

The Assembly and Senate both conducted lengthy floor sessions this week in order to consider bills before the June 2 house of origin deadline. Since both houses were able to complete their work yesterday, they are in their home districts today. Below are some of the noteworthy education bills that cleared this deadline and are now in the second house:

- Assembly Bill (AB) 247 (Muratsuchi, D-Torrance) would place a \$14 billion transitional kindergarten (TK) through community college school bond on the 2024 statewide ballot in an unspecified election, which would replenish funding under the School Facilities Program
- AB 249 (Holden, D-Pasadena) would require a community water system to test for lead in each of their Title I school site's potable water system outlets

and require a local educational agency (LEA) to make faucets inoperable and provide an alternative source of potable water if they are found to have excess lead levels

- AB 377 (Muratsuchi) would eliminate the K-12 Strong Workforce Program and reappropriate the ongoing \$150 million into the Career Technical Education Incentive Grant (CTEIG), thus increasing the annual CTEIG allocation from \$300 million to \$450 million beginning with the 2024-25 fiscal year
- AB 938 (Muratsuchi) would establish new Local Control Funding Formula (LCFF) funding grants base rates in 2030-31 that would be double those put in place when the LCFF was established in 2013-14
- AB 1192 (McCarty, D-Sacramento) would require, beginning in the 2025-26 school year, a school district or charter school to provide professional development to a teacher aide assigned to TK and delays the start of the requirement that a school district or charter school maintain an average ratio of 10:1 for TK classrooms to 2025-26, but removes the “contingent upon an appropriation” language
- AB 1517 (Gallagher, R-Yuba City) would require, when a school district is determined to be in need of special technical assistance for the performance of students with disabilities, the superintendent to consult with its Special Education Local Plan Area administrator to determine which specific actions are needed to support student outcomes
- AB 1699 (McCarty) would require classified full- or part-time vacancies to be prioritized for current employees before the vacancy may be posted publicly
- Senate Bill (SB) 28 (Glazer, D-Orinda) would place a \$15 billion preschool through higher education bond before voters on the March 2024 primary election ballot
- SB 88 (Skinner, D-Berkeley) would impose new requirements on any driver providing transportation to students for compensation, including being mandated reporters, clearing tuberculosis risk assessments, and passing a criminal background check
- SB 98 (Portantino, D-Burbank) would provide LEAs with supplemental funding based on the difference between what the LEA would have received if LCFF funds were apportioned using enrollment and what the LEA did receive under the LCFF using average daily attendance
- SB 291 (Newman, D-Fullerton) would, commencing with the 2024-25 school year, require LEAs serving students in grades K-6 to provide at least 30 minutes of recess daily
- SB 354 (Ochoa Bogh, R-Yucaipa) would require the Commission on Teacher Credentialing, by January 1, 2025, to revise its Administrative Services Credential standards and performance expectations to include and strengthen preparation for inclusion, with a focus on universal design for learning
- SB 433 (Cortese, D-San Jose) would, in non-merit districts, remove the authority of a school or community college board to subject a permanent classified employee to disciplinary action for due cause, and the authority would instead be delegated to a third-party official, agreed upon by both the district and the employee organization
- SB 445 (Portantino) would require LEAs, upon a parent’s request, to translate the student’s Individualized Educational Plan (IEP) and other related documents in the native language of the parent within 30 calendar days of the IEP team meeting

- SB 532 (Weiner, D-San Francisco) would exempt fiscal disclosure requirements for local tiered tax and bond measures from the 75-word cap on local ballot labels
- SB 541 (Menjivar, D-San Fernando Valley) would require schools, on or before the start of the 2024-25 school year, to make internal and external condoms available for free to all students in grades 9-12
- SB 760 (Newman) would require, by January 1, 2025, each LEA maintaining any combination of classes from K-12 to provide at least one all-gender restroom for pupil use at each of its school sites
- SB 765 (Portantino) would exempt California State Teachers' Retirement System retirees from the postretirement earnings compensation limit and the 180-day break in service requirement if certain criteria are met from July 1, 2024, to June 30, 2026

While most bills being considered will clear the house of origin deadline, it is much harder to get out of the second house than the first for various reasons: policy committee members expect the kinks of a bill to be substantially worked out by this point in the process and are not as forgiving as when a bill was just a few weeks old—as is the case during the first round of policy committee hearings; additionally, the priorities of one house may not align with the priorities of the other, making certain measures more difficult to pass.

## **Congress Approves Debt Ceiling Legislation**

By Kyle Hyland  
School Services of California Inc.'s *Fiscal Report*  
June 2, 2023

On Wednesday, May 31, 2023, the U.S. House of Representatives approved the debt ceiling deal brokered by President Joe Biden and House Speaker Kevin McCarthy (R-CA) by a vote of 314-117. The U.S. Senate followed suit, approving the bill late Thursday evening by a vote of 63-36 and then sent the measure to President Biden, who is expected to sign the legislation into law at some point today, Friday, June 2, 2023.

The agreement reached between the Biden Administration and Speaker McCarthy suspends the federal government's \$31.4 trillion borrowing limit through January 1, 2025, ensuring that there will be no debt ceiling standoff between the President and House Republicans during the 2024 presidential election. More importantly, the deal averts an economic crisis by guaranteeing that the U.S. will not default on its financial obligations. Without this deal, U.S. Treasury Secretary Janet Yellen predicted that the nation would have hit its debt limit on June 5.

In exchange for suspending the debt ceiling, the Biden Administration agrees to keep non-defense spending flat in fiscal year (FY) 2024 and cap total spending increases for FY 2025 at 1%. This means that the \$10.8 billion increase for education programs that President Biden proposed back in his FY 2024 budget blueprint back in March will not be realized (see "[President Biden Releases 2024 Budget](#)" in the March 2023 Fiscal Report).

The agreement also claws back approximately \$27 billion in unspent COVID-19 relief funding, including \$392 million from the Education Stabilization Fund (ESF). The ESF is comprised of the four primary federal emergency relief funds for education during the pandemic: the Elementary and Secondary School Emergency Relief Fund, the Governor's Emergency Education Relief Fund, the Emergency Assistance to Non-Public Schools Fund, and the Higher Education Emergency Relief Fund.

It is important to note that the dollars being recaptured from the ESF are unobligated funds that have yet to be awarded because they are still sitting in the U.S. Treasury and thus were not available for release to states or local educational agencies (LEAs) by the U.S. Department of Education. This means that LEAs should not worry about forfeiting ESF dollars they have spent or encumbered since the obligation and spending deadlines for the various funds have not changed in the debt ceiling measure.

The bill also imposes stricter work requirements for the Supplemental Nutrition Assistance Program, claws back funding for the Internal Revenue Service enforcement, protects veterans' health care benefits, restarts student loan repayments, and accelerates the permitting of new energy projects. The Congressional Budget Office estimates that the legislation will cut federal spending by \$1.5 trillion over a decade.

*Note: Governor Gavin Newsom, State Superintendent of Public Instruction Tony Thurmond, and Attorney General Rob Bonta sent a [letter](#) to school leaders this week warning that the U.S. Constitution restricts banning educational materials solely on the grounds that they're "controversial, unpopular, or offensive to some."*

## **Gavin Newsom Warns California Schools that Ban Books Will Answer to the Attorney General**

By Maggie Angst  
*The Sacramento Bee*  
June 1, 2023

Gov. Gavin Newsom sent a stern message Thursday to school leaders across California — any attempt to ban books from classrooms or libraries may require them to answer to the state attorney general.

In a letter to county and district superintendents and charter school administrators, Newsom, State Superintendent Tony Thurmond and Attorney General Rob Bonta cautioned against instituting any book bans.

Should a school still choose to remove certain instructional materials, the trio warns that it could be asked to explain its decision-making process to Bonta's office.

"As state leaders elected to represent the values of all Californians, we offer our response in one shared voice: Access to books — including books that reflect the diverse experiences and perspectives of Californians, and especially, those that may challenge us to grapple with uncomfortable truths — is a profound freedom we all must protect and cultivate," the letter read.

The free speech organization Pen America has found instances of book bans rising rapidly across the nation. During the first half of the 2022-23 school year, there were 1,477 cases of books being removed from schools, up from 1,149 in the previous six months, according to a recent PEN report.

The American Library Association recorded 87 challenged book titles in 2022 in California, and almost all of the top 10 books targeted for removal revolved around LBGTQ issues. The two most challenged were "Gender Queer: A Memoir" by Maia Kobabe and "Beyond Magenta" by Susan Kuklin, according to the Library Association.

Book bans are frequently invoked by Newsom as a prime example of repressive policies in red states such as Texas and Florida, and a stark contrast to California.

The letter distributed to California schools on Thursday highlighted constitutional precedent and case law that officials say restrict the removal of books and mandate that school administrators preserve freedom of speech and academic freedom.

Newsom, Bonta and Thurmond said it was meant to assist school leaders with "fielding requests within your community while you continue to support your students and their educational rights."

---

*Note: SB 88 (Skinner) has been one of the most contentiously fought education bills this year, and opposition continues to mount as it moves to the second house.*

## **With Chronic Absenteeism on the Rise, Why is California Making School Transportation Harder?**

By Georgina Rodriguez, Guest Commentary  
*CalMatters*  
May 31, 2023

Graduation season is always a bittersweet time for me. It serves as a reminder of all that I've accomplished and how proud I am of how far I've come. But it's also a reminder of how close I came to not graduating from high school.

I grew up in a family that experienced homelessness. My parents, two sisters and I constantly moved from one shelter to another, struggling to find stability. Eventually, my sisters and I ended up in the foster care system. Given how much we moved around, getting to school every day was one of my biggest challenges. Transportation often prevented me from going to school.

Today, chronic absenteeism in California schools is worse than it was before the pandemic. For so many children in California, chronic absenteeism isn't a result of not wanting to go to school – it's simply that they can't get there.

In California, we invest a lot of money in our school bus system, which is an essential part of the way kids get to school. But the reality is that yellow buses don't work for every child, especially for kids in foster care. With absenteeism on the rise, it's more important than ever that we find ways to get every kid to school.

This isn't for lack of trying from our representatives and school leaders. Last year, California received historic funding for transportation. Everyone agrees that school transportation is critical for kids and that it is a key factor in whether or not they can be successful in school. This time of year, we have an urgent opportunity to get students to school every single day to meet attendance and graduation goals.

But there's a bill moving through the California Legislature, Senate Bill 88, which would force transportation options that serve students with specialized needs to meet complicated, illogical and almost impossible requirements. If Oakland state Sen. Nancy Skinner's proposal becomes law, these vital transportation options that help fill the gaps could struggle to exist.

When I was moved into the foster care system, I desperately wanted to attend my school of origin so I could see my sisters, who were living in a different home. But there was no school bus or public transportation that could get me there, leaving me separated from the most important people in my life.

In the span of one year, my sisters and I moved homes five times and I attended three different schools. Every time I changed schools, some of my coursework didn't transfer. I thought I wasn't going to graduate. In fact, I thought about quitting altogether.

For a while, I tried taking a two-hour public bus ride to go to school with my sisters, but I couldn't maintain the schedule. I was falling apart mentally and falling behind in school.

Eventually, my social worker alerted me to another option called HopSkipDrive, which works with school districts and other agencies to arrange rides for students who need extra help getting to school. It changed everything. The service cut the ride to just 30 minutes, and allowed my sisters and I to ride to school together.

The shortened commute also allowed me to go to school early or sometimes stay late so I could catch up on the credits I missed. After a lot of hard work, I graduated with a president's award, citizenship award and on the honor roll.

I got lucky discovering HopSkipDrive, but I don't want other kids in foster care to have to go through what I went through before that. Kids who are in the system already can feel like they aren't wanted and don't belong, and there are so many things that they have to deal with on a daily basis.

With so much instability at home, getting to school safely and consistently is one less thing to worry about.

SB 88 could make it much more difficult for services like this to survive, prompting school districts and county education offices across California to oppose the bill. At this time of year, and in this time for our state, we need to be looking for every solution to get kids to school.

I hope more people will hear my story and think about the thousands of students like me across California. We need to expand options for kids, not shrink them.

Fresno Unified School District  
Board Communication

**BC Number BFS-2**

From the Office of the Superintendent  
To the Members of the Board of Education  
Prepared by: Ashlee Chiarito, Executive Officer  
Cabinet Approval:

Date: June 09, 2023

Phone Number: 457-3934

Regarding: School Plans for Student Achievement

The purpose of this communication is to provide the Board information regarding upcoming approval of the School Plans for Student Achievement (SPSA) for the 2023/24 school year. This item is number A-5 on the Board agenda for June 14, 2023. The development of SPSAs is an ongoing cycle of reflection, undertaken by each school, that includes reviewing student outcomes, identifying disproportionate performance, and directing resources towards improvement.

Each plan is aligned with the five district goals and utilizes the \$39.5 million of recommended resources for school level planning that was proposed to the Board on January 25, 2023 during Phase I of the 2023/24 Budget Development Process. The proposed State and Federal funds are listed below:

- Local Control Funding Formula (LCFF) Supplemental and Concentration Funds – \$29.1 million
- Elementary and Secondary School Emergency Relief (ESSER) Funds – \$2.1 million
- Federal Title I Funds – \$8.3 million

This is a collaborative process between departments, schools, and educational partners. The Office of State and Federal Programs provided training and support to schools, including budget development and review of statutory requirements of each plan. Research, Evaluation and Assessment assisted with the needs assessment by supporting metric identification in alignment with the state dashboard and district goals. School Leadership guided site leaders and provided feedback to schools in the development of the SPSAs. Educational partners at each site provided plan feedback. School Site Councils (SSC), made up of parents, students, and staff, are responsible for developing and approving the SPSA.

As in previous years, equity-based funding principles are utilized based on the individual school's population of low-income, foster youth, and English learners to determine allocations. Trends demonstrate increased school investment of academic support for students and teachers, technology, and resources to connect with parents and families.

The District is required to set aside a minimum of 1% of the Title I allocation for Family and Community Engagement. Schools continue to demonstrate the value of family engagement, programming over 6.0% of funding for those activities. The attached chart summarizes investments made by school sites through this process.

Schools and departments worked collaboratively to support a successful SPSA process. It is recommended that the Board approve the 2023/24 School Plan for Student Achievement plans on June 14, 2023.

If you have any questions pertaining to the information in this communication, or require additional information, please contact Ashlee Chiarito at 457-3934.

Phone Number: 457-3341

Regarding: Year Two Learning Communities for School Success Program Grant Update

The purpose of this board communication is to provide the Board with an update on the three-year Learning Communities for School Success Program grant awarded in August 2021. Grant funds support the development of systems and structures for our Multi-Tiered System of Support (MTSS) framework by enhancing our Tier II targeted interventions districtwide, strengthening our social emotional, and behavioral supports, and refining our Tier III system.

Using grant funds, we hired the last three out of five Tier II Intervention Specialists for the 2022/23 academic year to assist in implementing Tier II structures, interventions, and support at our grant sites. The Tier II Intervention Specialist provides direct services to students with evidence-based targeted interventions to address social, emotional, behavioral, and attendance needs.

The Grant Project Team, made up of representatives from the grant sites, has convened three times during the 2022/23 school year to collaborate on Tier II and III structures and supports. Along with reviewing grant action items and examining student data, the team collectively identified steps to further promote student access to appropriate interventions and identify progress monitoring tools.

A cross-departmental leadership team is identifying curriculum, identification criteria, progress monitoring tools, and universal strategies to develop our targeted academic, social emotional, and behavioral interventions.

In support of refining our Tier III system, a cross-departmental work team has drafted a Student Success Team guidebook that will support sites through the referral process, identify areas of student need, and support the team with the development of a Tier III educational plan for students with intense academic, social, emotional, and behavioral needs. In addition, Tier III resources will be piloted at three sites next school year to collect feedback and guide revisions before systemwide implementation later in the Fall or Spring depending on the revisions needed.

Finally, grant funds will be utilized to assign Tier II Intervention Specialists to the five grant sites during Summer Academy from June 12 to June 30, 2023, to provide ongoing intervention. In addition, one Behavioral Intervention Specialist will provide intensive behavioral support to students with greater needs across the grant sites.

If you have any questions pertaining to the information in this communication or require additional information, please contact Rita Baharian at 457- 3341.

Regarding: 2023/24 HBCU Step Up Program Staffing & Funding

The purpose of this board communication is to provide an update regarding the staffing and funding that has been presented to the board as one of the investments included in the Strategic Budget Development process in support of the HBCU Step Up program for the upcoming school year. During the 2022/23 HBCU Step-up pilot year, 11<sup>th</sup> grade students enrolled at Sunnyside, Edison and Bullard participated in multiple college level courses in partnership with Benedict College, a Historically Black College and University (HBCU) located in Columbia South Carolina. Following the targeted growth plan for the HBCU Step Up program, students in both the 11<sup>th</sup> and 12<sup>th</sup> grades at Sunnyside, Edison and Bullard High Schools will have access to the HBCU Step Up program during the upcoming 2023/24 school year. Funding and staffing investment requests that were brought to the board as component of the 2023/24 Strategic Budget Development process to support this expansion include:

- 3 Full Time Equivalent (FTE) Teaching Positions
- Manager II position to support and grow HBCU Step Up program
- \$300,000 for HBCU Step Up tutors and wrap around student supports
- \$210,000 for HBCU Caravan, professional learning, reduced tuition and enrollment fees
- \$377,000 to provide to support college preparation and visitations, student experiences, and community events

If you have any questions pertaining to the information in this communication, or require additional information, please contact Jeremy Ward at 248-7534.

Regarding: Qualifications and Support for Gifted and Talented Education

The purpose of this board communication is to provide the Board with an update on the qualification practices and instructional supports for Gifted and Talented Education (GATE) programs. In 2014, Fresno Unified School District entered into a Resolution Agreement with the Office of Civil Rights (OCR). As part of the work with OCR, Fresno Unified worked with a nationally recognized specialist and legal counsel with expertise in gifted education to focus on equitable eligibility.

In 2021/22 after exiting OCR monitoring, a cross-departmental GATE Advisory Committee was created consisting of site leaders and representation from several district departments: Curriculum, Instruction and Professional Learning (CIPL), State and Federal, School Choice Office, Equity & Access and Research, Evaluation and Assessment. The GATE Advisory Committee assures fidelity to OCR recommendations which have resulted in multiple measures to qualify students for GATE while decreasing inequities in under-represented groups.

This year, 2022/23, for first grade students initially identified through the GATE screener, a digital portal was created to capture a portfolio-style review. A team with representation from African American Academic Acceleration, English Learners Services, CIPL, Special Education and GATE certified teachers used a blind holistic process to examine individual students for recommendation. Students were reviewed using local norms to compare various criteria.

In grades two through five, GATE qualification also reflected a multiple-measure approach. Students identified through the GATE Cognitive Ability Test with a score of 6+ age stanine, and students who met the automatic qualification, based on iReady and SBAC scores, were qualified to receive accelerated instruction. This process allows students to qualify for accelerated services through different measures including, but not limited to, the GATE assessment.

Although not all identified students are enrolled in a formal GATE program such as Manchester Gate or Yokomi, all students receive acceleration support at their current school. This includes GATE recommendations for student placement, instructional strategies, acceleration pedagogy and assignment of a GATE certified teacher when possible.

If you have any questions pertaining to the information in this communication, or require additional information, please contact Susana Montanez at 457-6079.

Regarding: IdeaFest Impact and Next Steps

The purpose of this board communication is to provide the Board with an update regarding the overall impact of IdeaFest as well as next steps in preparation for expanded engagement in IdeaFest 2024.

IdeaFest is the Fresno Unified School District Transition to Kindergarten (TK) through 12<sup>th</sup> grade showcase of student learning and application through the development of real-world projects, art expressions, musical and dance performances, and future-ready experiences. During these past two years of IdeaFest, over 2300 students have been impacted through their classroom experience with over 900 students participating on the day of the event.

IdeaFest 2022, held at Chukchansi Park, featured over 70 booths of student projects. The theme was *The Family Farm*. Over 500 students participated along with over 90 student musicians across grades TK-12. The highlight of the event was three produce stands (two of which were student designed) for Sunnyside High School, Kirk Elementary School, and Baird Middle School. Students were able to present a wide variety of local produce for sale.

IdeaFest 2023 was hosted by Fresno City College. The Theme was *Pandemic Reflection, Recovery, Reimagination*. Over 300 students participated, including 20 Design Science Middle College High School students who served as community liaisons. Over 40 teachers supported their students throughout the event, representing 29 schools. As part of the event, a district-wide art competition, *Expressions of Joy*, was conducted with over 360 student submissions. Over \$2000 was contributed by sponsors for student awards, and the submissions were juried by three local artists. Forty selections were framed and exhibited in the art show (20 elementary, 10 middle school, and 10 high school). Additionally, honor band, honor orchestra and honor choir student musicians, representing all comprehensive high schools, performed an inspirational musical composition for *Expressions of Joy*.

At this year's event, a unique and poignant contribution came from our Sunnyside team, which presented short stories written by first-year immigrants. These narratives conveyed the personal impacts of the COVID-19 pandemic in their home countries and the trials they faced fleeing regions marked by extreme violence. Many of the teachers were moved by this exhibit, and the IdeaFest Advisory team was inspired to engage with local Fresno writers to strengthen a literacy component for student projects as part of IdeaFest 2024.

During IdeaFest 2023, the theme for IdeaFest 2024 was launched: *My Home. Elevate, Celebrate, Advocate*. This theme promises to be a robust vehicle to honor and celebrate the diverse cultures of Fresno.

As the team reflects upon the lessons of IdeaFest 2022 and 2023, as well as feedback from students, teachers, our Board and community partners, the following adjustments will be made: lessen the overall

time during the day of the event, recruit teachers, advertise to community earlier, and deepen cross-functional collaboration with departments, including consideration of the following expansion opportunities:

- Incorporate a literacy component in partnership with local Fresno writers
- Continue collaboration with the District's Arts Education and Student Engagement team
- Engage College and Career Readiness and potential Innovation Day cross-over
- Showcase State Civic Seal of Engagement student projects
- Showcase Ethnic Studies expansion
- Highlight Advanced Coursework and post-secondary opportunities

The Curriculum, Instruction and Professional Learning department is committed to further developing the showcase of Fresno Unified School District students' innovation and talents from TK through 12<sup>th</sup> grade and see IdeaFest as an important continued investment. This proactive investment also highlights our educators' dedication to further their skills to provide real-world learning experiences and enhance student engagement in project-based learning.

See below for a two-year breakdown of cost and impact.

<b>IdeaFest Year</b>	<b>Expense</b>	<b>Impact</b>
2022	\$128,430	<ul style="list-style-type: none"><li>• 1400+ students engaged in project-based learning/arts integration/CTE</li><li>• 500+ students engaged in the event</li><li>• Over 70 participating teachers</li><li>• Over 35 schools represented</li></ul>
2023	\$99,170	<ul style="list-style-type: none"><li>• Over 950 students engaged in project-based learning/arts integration/CTE</li><li>• 300+ students engaged in the event</li><li>• Over 500 community members received Passports to explore the student booths throughout the event</li><li>• Over 30 schools participated, including student representation from all comprehensive high schools in honor band/choir/orchestra performance</li><li>• Engagement of students from Phoenix Elementary and Secondary as well as Fulton School</li></ul>

Regarding: National Speech and Debate Association Championship Out of State Trip Revision

The purpose of this board communication is to provide updated information to the Board regarding student attendance at the National Speech and Debate Association Championship Conference. The original board communication, dated April 28, 2023, included Bullard and Edison High School students attending the National Speech and Debate Association Championship Conference. The conference will also be attended by two McLane students for the first time ever.

The National Speech and Debate Tournament in Phoenix, Arizona, is compliant with all Common Core State Standards, listening and speaking skills. Speech and debate classes have been beneficial in developing skills students need for future success. Fresno Unified School District's speech and debate classes produce judges, attorneys, supervisors in organizations, teachers, professors, and medical professionals.

This year a total of seven students from Fresno Unified will attend and compete in the national tournament. This is the largest academic competition in the United States, and only the top two percent of teams qualify for the national tournament. This year, Edison High School reached their 28<sup>th</sup> year, Bullard High School reached their 47<sup>th</sup> year and McLane reached their 2<sup>nd</sup> year of having a speech and debate class and team. Accompanying the students to the National Speech and Debate Association Championship will be two Bullard High teachers, one Edison High Teacher and two McLane Teachers.

If you have any questions pertaining to the information in this communication, or require additional information, please contact Jennifer Stacy-Alcantara, Matt Ward or Sandra Toscano, Instructional Superintendents at (559) 457-3753.

Regarding: National Speech and Debate Association's Championships Out of State Trip

The purpose of this board communication is to provide the Board information regarding students from Bullard and Edison High School who will be competing for the National Speech and Debate Association Tournament. The tournament is in compliance with all Common Core State Standards, Listening and Speaking skills. Speech and Debate class provides skills that will carry on with students in all walks of life, including in career pathways, relationships, and being a productive citizen in their community. Bullard High School Speech and Debate class has produced judges, attorneys, supervisors in organizations, teachers, professors, and medical professionals. This year, we had five students who earned a spot to the State Tournament in Carlsbad High School on April 21, 2023, to April 23, 2023. For the National Tournament in Phoenix, Arizona, from June 10, 2023, to June 17, 2023, we have seven students attending. The National Speech and Debated Association is the largest academic competition in the United States and only the top two percent of teams even make the National Tournament. Finally, this year, Edison High School will have reached their 28<sup>th</sup> year in having a speech and debate class, and Bullard High School will have reached their 47<sup>th</sup> year in having a speech and debate class. Accompanying the students to the National Speech and Debate Association's Championships will be two Bullard High teachers and one Edison High teacher.

Regarding: Ethnic Studies Curriculum Showcase

The purpose of this board communication is to provide the Board updated information regarding the Ethnic Studies Showcase held on Tuesday, May 23, 2023. The Showcase was facilitated by the Ethnic Studies team in Curriculum, Instruction and Professional Learning and the Ethnic Studies teachers from seven high schools and five middle schools. The Showcase was designed to share progress, highlight collective efforts of curriculum design and gain feedback going forward from all educational partners.

Along with multiple departments represented, over 50 community members and leaders including local college professors, and district leaders attended. The Showcase marks the culmination of a yearlong process and collective efforts of 23 Cohort I teachers from across all regions who developed the Ethnic Studies Curriculum Handbook in collaboration with Fresno City College and California State University, Fresno. Community and district partners were able to provide feedback on lessons and units that will support ongoing revision of Ethnic Studies curriculum for Fresno Unified secondary students, ensuring community voice and local context as essential to the curriculum development process.

As a result of collective efforts such as this Showcase, Fresno Unified School District will continue to grow its Ethnic Studies program in preparation for the high school graduation requirement and first graduating class of 2027 with the following:

- 1.0 FTE for Ethnic Studies provided to each comprehensive high school during 2023/24.
- Middle School elective course offerings will increase for the 2023-2024 school year at the following sites: Gaston, Fort Miller, Tenaya, Computech, Baird and Sequoia.
- A second Ethnic Studies Foundational Training will be offered for Cohort II from June 12<sup>th</sup> – 16<sup>th</sup>, 2023. Currently twenty-five teachers are enrolled.
- June 20<sup>th</sup>- 23<sup>rd</sup>, 2023 training in which teachers will engage co-developing the middle school ethnic studies elective course handbook and scope and sequence documents.
- Eleven middle and high school teachers including eLearn are enrolled in the San Francisco State Ethnic Studies Graduate Certificate program.
- Development of a local Ethnic Studies micro credential in partnership with Fresno Unified School District and California State University, Fresno.
